Fayette County has consistently been one of Illinois' **top-five oil producing counties** since the discovery of the historic Loudon field in the 1930s. County oil production totaled nearly **650,000 barrels** in 2018, fifth-most of any county in the state. Fayette County oil reserves continue to generate significant property tax revenue, totaling **\$3.2 million** from 2007-2017. IPRB conservatively estimates that at least **\$1.6 million** of that revenue primarily went to fund the four public school districts based in the county and their total 3,026 K-12 students.
