2019	\$	93,039.00	\$	46,519.50
2007-2019	\$	723,455.00	\$	361,727.50

Clark County has been a significant oil producing county in Illinois for many decades. More than 220,000 barrels of oil were produced in the county in 2019, 11th-most in the state. Clark County's oil production generated more than **\$723,000** in property tax revenue from 2007-2019. IPRB conservatively estimates that at least **\$361,000** of that property tax revenue went to fund the county's three primary public school districts and their approximately 2,650 students.
