2007-2019	\$ 1,928,197.00	\$ 964,098.50

Jefferson County has long been a significant oil producing county in Illinois and has also been known as the hub of the Illinois Basin for decades. More than 172,000 barrels oil were produced in the county in 2019, 15th-most in the state. Jefferson County's oil production generated more than **\$1.92 million** in property tax revenue from 2007-2019. IPRB conservatively estimates that at least **\$964,000** of that property tax revenue went to fund the county's 20 public school districts and their more than 5,800 students.
