<b>2007-2019</b>	<b>\$ 14,396,721.00</b>	<b>\$7,198,360.50</b>

Marion County has been one of Illinois' top oil producing counties since the late 1930s and has consistently been Illinois' second largest producing county at nearly one million barrels per year over the past decade. This production generated just under **\$14.4 million** in property tax revenue for the county from 2007 to 2019. IPRB conservatively estimates that at least **\$7.2 million** of that revenue primarily went to fund the 15 public school districts based in Marion County and those districts' approximately 6,900 total students.
