2019	\$ 2,074,713.00	\$1,037,356.50
<b>2007-2019</b>	<b>\$ 18,363,777.00</b>	<b>\$9,181,888.50</b>

White County has been Illinois' top oil producing county for several years, producing **more than 2 million barrels** in 2019 and 2020. The county's prolific oil production reserves were responsible for approximately **11 percent** of the county's overall property tax revenue from 2007-2019, totaling **more than \$18.3 million**. IPRB conservatively estimates that at least **\$9.18 million** of that revenue went to fund the county's three primary public school districts - Carmi-White County CUSD #5, Norris City-Omaha-Enfield CUSD #3 and Grayville CUSD #1 - which have a combined 2,437 students.
