2007-2020	\$ 15,002,783.00	\$7,501,391.50

Marion County has been one of Illinois' top oil producing counties since the late 1930s and has consistently been Illinois' second largest producing county with an average of [nearly one million barrels](#) per year over the past decade. This production generated more than \$15 million in property tax revenue for the county from 2007 to 2020. IPRB conservatively estimates that at least \$7.5 million of that revenue primarily went to fund the 15 public school districts based in Marion County and those districts' approximately 6,900-plus total students.
