2023	\$ 89,348.00	\$ 57,450.00
2007-2023	\$ 1,060,806.00	\$ 635,919.44

Clark County has been a significant oil producing county in Illinois for many decades. Clark County's oil production generated more than \$1.06M in property tax revenue from its oil reserves between 2007-2023. The percentage of ad valorem revenue that has gone to fund K-12 public schools in the county has ranged from 56-63% annually during that time-frame. Therefore, IPRB estimates \$635,000 of that property tax revenue went to fund the county's three primary public school districts and their approximately 2,650+ students.
