<b>2007-2023</b>	<b>\$ 4,199,308.00</b>	<b>\$2,490,816.88</b>

Hamilton County has long been a significant oil producing county in Illinois. Hamilton County's oil production industry generated more than \$4.19 million in property tax revenue from oil reserves from 2007-2023, an average of more than \$246,000 per year. Over that timespan the annual percentage of property tax revenue generated from oil reserves that has gone to K-12 public schools near production has been 57-61%. Therefore, IPRB estimates that \$2.49 million of that property tax revenue - an average of more than \$146,000 per year - primarily went to fund the county's primary school district, Hamilton County Community Unit #10.
