2007-2023	\$ 5,873,584.00	\$3,309,309.22

Though tiny in terms of geography (228 square miles) and population (11,489), Wabash County has been a major Illinois oil producing county for decades. Oil reserves in Wabash County generated \$5.87 million-plus in property tax revenue from 2007-2023 - an average of more than \$345,000 per year - with between 54 and 60% of that revenue going to K-12 public schools each year during that timeframe. That means approximately \$3.3 million was generated for the county's two primary school districts - Wabash Community CUSD #348 and Allendale CUSD #17 - from 2007-2023, an average of more than \$194,000 per year.
