2007-2023	\$ 6,825,199.00	\$ 4,046,099.29

Wayne County has long been a top-10 oil producing county in Illinois, ranking seventh in the state in production in recent years. IPRB estimates Wayne County's oil reserves generated more than \$6.82 million in property tax revenue from 2007-2023 - an average of more than \$401,000 per year - with between 54 and 60 percent of that revenue going to K-12 public schools near production each year during that timespan. IPRB estimates that approximately \$4.04 million of the \$6.82 million total generated between 2007-2023 went to fund the county's seven public school districts and their combined 2,500-plus K-12 students, an average of more than \$235,000 per year.
